

FOOD SECURITY SEMINAR

CSIR INTERNATIONAL CONVENTION CENTRE
24 JUNE 2015

Political instability, uneven access to resources and funding, poverty, skills shortages, a lack of interest in farming among young rural people, and a changing climate are just some of the complex factors that perpetuate food insecurity among Africans. This seminar invites thought leaders and experts in the field of food security, agriculture, and fisheries to share the latest thinking and examples of best practice, presenting the changing face of African agriculture. Discussions will contribute to the formulation of consensus on the best course for African countries.

MORNING SESSION:

Climate Change Mitigation and Adaptation

Tea Break

Land use – biodiversity and productivity

Lunch

AFTERNOON SESSION:

Household food security

Tea Break

Addressing rural poverty by stimulating the rural economy

Each session is structured as a facilitated expert panel, with each speaker presenting for 20 minutes followed by a Q&A and panel discussion with input from the floor.

**SUSTAINABILITY
WEEK**
GET READY TO PUT IDEAS IN MOTION

23-28 JUNE 2015

In 2015, SustainabilityWeek will through its innovative construction truly reflect the interconnectedness of the issues – the cause and effect of actions, and the need to balance interests in a bid to achieve the most appropriate approach in all cases. Sustainability is not a quick fix or a one-size-fits-all solution, it is about a process of reaching decisions, with due deference to the interests of all stakeholders, including those not in the room. For the first time delegates will be able to attend sessions of different seminars as these are segmented and offered in multiple programmes. The construction allows people from different sectors to encounter the opportunities and challenges from one another's perspectives, a primary step towards reaching consensus.
