**SUSTAINABILITY
WEEK**
GET READY TO PUT IDEAS IN MOTION

23-28 JUNE 2015

In 2015, Sustainability Week will through its innovative construction truly reflect the interconnectedness of the issues – the cause and effect of actions, and the need to balance interests in a bid to achieve the most appropriate approach in all cases. Sustainability is not a quick fix or a one-size-fits-all solution, it is about a process of reaching decisions, with due deference to the interests of all stakeholders, including those not in the room. For the first time delegates will be able to attend sessions of different seminars as these are segmented and offered in multiple programmes. The construction allows people from different sectors to encounter the opportunities and challenges from one another's perspectives, a primary step towards reaching consensus.
